INDEX OF AUTHORS.

PAGE

Ballance, C. A., and Lees, D. B.
Case of posterior-basic meningitis, trephining, recovery 358

Ballet, Gilbert.
Traité de pathologie mentale (Review) 73

Barnes, Stanley.
Diffuse sarcomatous infiltration of the spinal pia mater 30

Barr, Martin W.
Mental defectives (Review) 352

Batten, F. E.
Ataxia in childhood 484
Case of acute ataxia in a boy 360
Case of tremor of right arm associated with epilepsy 359
Congenital affection of sixth, seventh and twelfth cranial nuclei ... 359
Case of defect in upward and downward movement of the eyes. Mental impairment 587
Encephalitis 488
Case of ulnar neuritis, with fusiform enlargement of the nerve, occurring fifteen years after injury to the elbow 587

Beevor, Charles E.
Case of mesencephalic lesion 355
Case of peroneal type muscular atrophy—familial type 354
Case of progressive muscular atrophy, immobile pupils, exostosis on humerus 354

Bryant, J. H.
Two cases of the peroneal type of family amyotrophy 355

Burkholder, J. F.
The anatomy of the brain (Review) 90

Buzzard, E. Farquhar.
The clinical history and *post-mortem* examination of five cases of myasthenia gravis 438

Buzzard, Farquhar.
A boy with some cranial nerve palsies 587

PAGE

Buzzard, Thomas.
Case of mesencephalic lesion 358
Case of muscular wasting with unusual symptoms 359

Campbell, Alfred W.
Cerebral sclerosis 367

Camus, Jean, and Pagniez, Philippe.
Isolement et psychothérapie (Review) 85

Chomel, Meige, Feindel, Cruchet, &c.
Discussion sur les Tics (Review) 567

Chomel, Meige, Rudler, Dupré, &c.
Discussion sur les Tics (Review) 567

Clarke, R. H., and Horsley, Victor.
On the intrinsic fibres of the cerebellum, its nuclei and its efferent tracts 13

Collier, Dr.
A case of acute encephalitis resulting in partial left hemiplegia, and complete loss of vision. Optic discs healthy. Pupil reactions normal 589

Cruchet.
Etude critique sur le tic convulsif et son traitement gymnastique (Review) 567

Cruchet, Meige, Feindel, Rudler, Chomel, &c.
Discussion sur les Tics (Review) 567

Cruchet, Meige, Pitres, Grasset, &c.
Discussion sur les Tics (Review) 567

Dana, Charles L.
Myoclonus Multiplex (Review) 79

Dupré, Meige, Rudler, Chomel, &c.
Discussion sur les Tics (Review) 567

Feindel, Meige, Cruchet, Rudler, Chomel, &c.
Discussion sur les Tics (Review) 567

Gehuchten, A. van.
Le corps restiforme et les connexions bulbocérébelleuses (Review) 55
Les pédoncules cérébelleux supérieurs (Review) 55

Gibson, G. A.
Some hitherto undescribed symptoms in angina pectoris ... ...

Grasset, Meige, Pitres, Cruchet, &c.
Discussion (Review) 567

Guthrie, Leonard.
Case of acute ataxy (encephalitis cerebelli) 363
Primary atrophy of optic nerves, with partial ophthalmoplegia and cerebellar gait 97
Two cases of (?) early Friedreich's disease 588

Harris, Wilfrid.
A case of chronic chorea 94
Case of transverse sacral myelitis (first sacral) 364

Head, Henry.
A case of Huntingdon's chorea 98
A case of Huntingdon's chorea 362
Case of myoclonus 362

Head, Henry, Rivers, W. H. R., and Sherren, James.
The afferent nervous system from a new aspect 99

Head, Henry, and Sherren, James.
The consequences of injury to the peripheral nerves in man ... 116

Hitzig, Eduard.
Physiologische und klinische Untersuchungen über das Gehirn (Review) 579

Holmes, Gordon.
Case of mid-brain lesion with unilateral tremor 93

Horsley, Victor, and Clarke, R. H.
On the intrinsic fibres of the cerebellum, its nuclei and its efferent tracts 13

Horsley, Victor.
On a trigeminal-aural reflex in the rabbit 65

Hunt, J. Ramsay.
Pathology of paramyoclonus multiplex (Friedreich's type) (Review) 79

Jones, A. Ernest, M.D., M.R.C P.
The onset of hemiplegia in vascular lesions 527

Jones, Ernest.
Case of multiple bilateral contractures simulating pseudo-hypertrophic muscular paralysis. (An aberrant form of the Nageotte-Wilbon-chewitch syndrome) 585

Jones, H. Lewis.
Case of paralysis of the upper extremity after dislocation of shoulder-joint in which the distribution of paralysis was unusual 361
Case of bilateral atrophy of the intrinsic muscles of the hands in a young female 362

Lees, D. B., and Ballance, C. A.
Case of posterior basic meningitis, trephining, recovery 358

Lewandowsky, M.
Untersuchungen über die Leitungbahnen des Truncus Cerebri (Review) 556

Lugaro, E.
On unilateral hallucinations of hearing (Review) 87

Lundborg, Hermann,
Die progressive Myoklonus-epilepsia (Unverricht's Myoklonie) (Review) 79

Lydston, G. Frank.
The diseases of society and degeneracy (Review) 581

Meige, Henry.
Tics (Review) 567

Meige, Feindel, Cruchet, Rudler, Chomel, &c.
Discussion sur les Tics (Review) 567

Meige, Pitres, Cruchet, Grasset, &c.

Mingazzini, S.
Experimentale und pathologisch-anatomische Untersuchungen über den Verlauf einiger Bahnen des Centralnervensystems (Review) 557

Ogilvie, George.
A case of tabetic gait beginning at the age of 64 357

Oppenheim.
Bemerkungen zur Lehre vom Tic (Review) 567

Ormerod, J. A.
Case for diagnosis; possibly progressive disease of pons and peduncles 92
Case resembling Friedreich's disease, but exhibiting extensive anæsthesia 92

Pagniez, Philippe, and Camus, Jean.
Isolement et psychothérapie (Review) 85

Paine, Dr. Alexander, and Dr. Poynton.
Some investigations on acute rheumatic nervous affections (Abstract) 590

Parsons, J. Herbert.
Brain from a case of orbital meningo-encephalocele (Abstract) ... 593

Pitres, Meige, Cruchet, Grasset, &c.
Discussion (Review) 567

Pollack, Bernhard.
Die Färbetechnik für das Nervensystem (Review) 88

Poynton, Dr., and Dr. Alexander Paine.
Some investigations on acute rheumatic nervous affections ... 590

Rivers, W. H. R., Head, Henry, and Sherren, James.
The afferent nervous system from a new aspect 99

Rolleston, J. D.
A note on the condition of the tendo-Achillis jerk in diphtheria ... 68

Rudler, Meige, Feindel, Cruchet, Chomel, &c.
Discussion sur les Tics (Review) 567

Rudler, Meige, Chomel, Dupré, &c.
Discussion sur les Tics (Review) 567

Russel, Colin K.
Case of juvenile type of general paralysis of the insane 586

Sachs, B., M.D.
Treatise on the nervous diseases of children, for physicians and surgeons (Review) 573

Savill, T. D.
A case of ataxy in a woman aged 40 of twenty years' duration ... 358
Two cases of generalised tonic muscular spasm in middle-aged men, probably paralysis agitans 96

Scott, F. H., Ph.D., M.B.
On the metabolism and action of nerve cells 506

Thomson, H. Campbell.
A case of tremor 357

Tuke, John Batty.
The relation of the lunacy laws to the treatment of insanity ... 1

Turner, Dr. John.
Pathological anatomy of idiopathic epilepsy (Abstract) 592

Turney, H. G.
A case of generalised spasm, most marked in the muscles of the back, probably due to a tumour in the neighbourhood of third ventricle 584

Voelcker, A. F.
A case of acute ataxy (encephalitis cerebelli) 95
Case of acute ataxy 360
Case of (?) disseminated sclerosis 361

Wilson, John Gordon.
The structure and function of the taste-buds of the larynx 339

INDEX OF SUBJECTS.

PAGE

Agenesis, lobar, with sclerosis and microgyria. Alfred W. Campbell ... 420

Amyotrophy, family, two cases of the peroneal type of. J. H. Bryant 355

Anæsthesia, case resembling Friedreich's disease, but exhibiting extensive. J. A. Ormerod 92

Angina pectoris, some hitherto undescribed symptoms in. G. A. Gibson 52

Arcuate system of cerebellum. R. H. Clarke and Victor Horsley ... 13

Arterio-sclerosis, cerebral. Alfred W. Campbell 429

Ataxy and ataxia, acute. F. E. Batten 497
acute, a case of (encephalitis cerebelli). A. F. Voelcker 95
acute (encephalitis cerebelli). Leonard Guthrie 363
acute (encephalitis cerebelli). F. E. Batten 488
case of acute, in a boy. F. E. Batten 360
case of acute. A. F. Voelcker 360
case of, in a woman aged 40, of twenty years' duration. T. D. Savill 358
congenital cerebellar. F. E. Batten 485, 496
in childhood. F. E. Batten 484
progressive cerebellar. F. E. Batten 493, 501

Atrophy, muscular, in myasthenia gravis. E. Farquhar Buzzard ... 475
muscular, peroneal type, familial type. C. E. Beevor 354
of optic nerves, primary, with partial ophthalmoplegia and cerebellar gait. Leonard Guthrie 97
progressive muscular. Immobile pupils, exostosis on humerus. C. E. Beevor 354

Aural reflex, trigeminal, in the rabbit. Victor Horsley 65

Brachial plexus, injuries to. Henry Head and James Sherren 185

Brain, anatomy of (a study of the human brain from the brain of the sheep). J. F. Burkholder (Review) 90
from a case of orbital meningoencephalocele. J. Herbert Parsons ... 593

Cells, *see* nerve cells.

Central nervous system, experimentale und pathologisch-anatomische Untersuchungen über den Verlauf einiger Bahnen des Central-nervensystems. S. Mingazzini (Review) 557

Cerebellar ataxia, congenital. F. E. Batten 485, 496
progressive. F. E. Batten 493, 501
peduncles, relation of the cortex cerebelli to the. R. H. Clarke and Victor Horsley 13

Cérébelleux, supérieurs, les pédoncules. A. van Gehuchten (Review) 557

Cerebellum, cortex of the, relation of, to the cerebellar peduncles. R. H. Clarke and Victor Horsley 13
nuclei of the, relation of the cortex cerebelli to. R. H. Clarke and Victor Horsley 13
on the intrinsic fibres of the, its nuclei and its efferent tracts. R. H. Clarke and Victor Horsley 13
size of the intrinsic fibres of the. R. H. Clarke and Victor Horsley 13

PAGE

Cerebral arterio-sclerosis. Alfred W. Campbell 429
hemiagenesis or hemisclerosis. Alfred W. Campbell 410
sclerosis. Alfred W. Campbell 367
sclerosis in epilepsy. Alfred W. Campbell 436
sclerosis in general paralysis of the insane. Alfred W. Campbell ... 435
sclerosis in senility. Alfred W. Campbell 436
sclerosis in syphilis. Alfred W. Campbell 437

Cerebrum, hypertrophy of. Alfred W. Campbell 396

Childhood and early life. Paralysis and other diseases of the nervous system in. James Taylor (Review) 573
ataxia in. F. E. Batten 484

Children, treatise on the nervous diseases of, for physicians and students. B. Sachs (Review) 573

Chorea, chronic, a case of. Wilfrid Harris 94
Huntingdon's, a case of. Henry Head 98, 362

Colloid sclerosis. Alfred W. Campbell 432

Compass test. Henry Head and James Sherren 228

Congenital affection of sixth, seventh and twelfth cranial nuclei. F. E. Batten 359
cerebellar ataxia. F. E. Batten 485, 496

Contractures, case of multiple bilateral, simulating pseudo-hypertrophic muscular paralysis. Ernest Jones 585

Cortex cerebelli, relation of, to the cerebellar peduncles. R. H. Clarke and Victor Horsley 13
cerebelli, relation of, to the nuclei cerebelli. R. H. Clarke and Victor Horsley 13
dans les méningites aiguës ; essai sur les altérations. Pierre Thomas (Review) 91

Cranial nerve palsies, a boy with. Farquhar Buzzard 587

Degeneracy, diseases of society and. G. Frank Lydston (Review) ... 581

Diphtheria, note on the condition of the tendo-Achillis jerk in. J. D. Rolleston 68

Diseases of society and degeneracy. G. Frank Lydston (Review) ... 581

Disseminated Sclerosis, case of (?) A. F. Voelcker 361

Elbow, case of ulnar neuritis, with fusiform enlargement of the nerve, occurring fifteen years after injury to. F. E. Batten 587

Encephalitis, case of acute, resulting in partial left hemiplegia and complete loss of vision. Dr. Collier 589
cerebelli, acute ataxia. F. E. Batten 488

Epicritic sensibility. Henry Head, W. H. R. Rivers, James Sherren 107

Epilepsy, case of tremor of right arm associated with. F. E. Batten ... 359
cerebral sclerosis in. Alfred W. Campbell 436
pathological anatomy of idiopathic. Dr. John Turner 592

Eyes, defect in upward and downward movement of. F. E. Batten ... 587

Fibres, intrinsic, of the cerebellum, size of. R. H. Clarke and Victor Horsley 13

Forearm, nerve supply of. Henry Head and James Sherren 172

Friedreich's disease, case resembling, but exhibiting extensive anæsthesia. J. A. Ormerod 92
disease (?), two cases of early. Leonard Guthrie 588

PAGE

Gait, case of primary atrophy of optic nerves, with partial ophthalmoplegia and cerebellar. Leonard Guthrie 97

General paralysis of the insane, cerebral sclerosis in. Alfred W. Campbell 435

Giant-cell sclerosis. Alfred W. Campbell 434

Hair sensibility. Henry Head and James Sherren 239

Hallucinations of hearing, on unilateral. E. Lugaro (Review) ... 87

Hand, nerve supply of palm of. Henry Head and James Sherren ... 123
recovery of sensation after incomplete division of nerves of. Henry Head and James Sherren 163
recovery of sensation after injury to nerves of. Henry Head and James Sherren 140

Hemiagenesis, cerebral, or hemisclerosis. Alfred W. Campbell ... 410

Hemiplegia, a case of acute encephalitis resulting in partial left, and complete loss of vision. Dr. Collier 589
onset of, in vascular lesions. A. Ernest Jones 527

Hemisclerosis, or cerebral hemiagenesis. Alfred W. Campbell... ... 410

Huntingdon's chorea, case of. Henry Head 98, 362

Hyperalgesia. Henry Head and James Sherren 245

Hypertrophy of the Cerebrum. Alfred W. Campbell 396

Idiopathic epilepsy, pathological anatomy of. Dr. John Turner ... 592

Injury, consequences of, to peripheral nerves in man. Henry Head and James Sherren 116
to nerves of hand, recovery of sensation after. Henry Head and James Sherren 140
to peripheral nerves, changes in the skin that follow. Henry Head and James Sherren 251, 263

Insane, general paralysis of the, case of juvenile type of. Colin K. Russel 586

Insanity, relation of lunacy laws to treatment of. John Batty Tuke ... 1

Intrinsic fibres of cerebellum, size of. R. H. Clarke and Victor Horsley 13

Isolement et psychothérapie, traitement de l'hystérie et de la neurasthénie. Jean Camus et Philippe Pagniez (Review) 85

Larynx, structure and function of, taste-buds of. John Gordon Wilson 339

Leitungbahnen Untersuchungen über die, des Truncus Cerebri. M. Lewandowsky (Review) 556

Lesions, vascular, onset of hemiplegia in. A. Ernest Jones 527

Lobar agenesis, with sclerosis and microgyria. Alfred W. Campbell ... 420

Lunacy laws, relation of, to treatment of insanity. John Batty Tuke 1

Megalocephaly. Alfred W. Campbell 397

Meningites aiguës, essai sur les altérations du cortex dans les. Pierre Thomas (Review) 91

Meningitis, case of posterior-basic, trephining, recovery. D. Lees and C. A. Ballance 358

Meningo-encephalocele, brain from a case of orbital. J. Herbert Parsons 593

PAGE

Mental defectives. Martin W. Barr (Review) 352
impairment, defect in upward and downward movement of the eyes. F. E. Batten 587

Mesencephalic lesion, case of. C. E. Beevor 355
case of. Thomas Buzzard 358

Metabolism and action of nerve cells. F. H. Scott 506

Microgyria and sclerosis, lobar agenesis with. Alfred W. Campbell ... 420

Mid-Brain lesion, case of, with unilateral tremor. Gordon Holmes ... 93

Multiple bilateral contractures, case of, simulating pseudo-hypertrophic muscular paralysis. Ernest Jones 585

Muscular atrophy, peroneal type, familial type. C. E. Beevor 354
atrophy, progressive, immobile pupils, exostosis on humerus. C. E. Beevor 354
changes, paralysis and other, after division of peripheral nerves. Henry Head and James Sherren 275
paralysis, pseudo-hypertrophic, case of multiple bilateral contractures simulating. Ernest Jones 585
wasting, case of, with unusual symptoms. Thomas Buzzard ... 359

Myasthenia gravis, clinical history and *post-mortem* examination of five cases of. E. Farquhar Buzzard 438
gravis, morbid anatomy of. E. Farquhar Buzzard 475
gravis, muscular atrophy in. E. Farquhar Buzzard 475
gravis, pathogenesis of. E. Farquhar Buzzard... 479
gravis, sensory phenomena in. E. Farquhar Buzzard 473

Myelitis, case of transverse sacral (first sacral). Wilfrid Harris ... 364

Myoclonus, case of. Henry Head 362
multiplex. Charles L. Dana (Review) 79

Myoklonus-epilepsia, die progressive (Unverricht's Myoklonie). Hermann Lundborg (Review) 79

Nails, changes in, after injury to peripheral nerves. Henry Head and James Sherren 263

Nerve cells, action of, and hypothesis of stimulation. F. H. Scott ... 520
cells, metabolism and action of. F. H. Scott 506
cells, some constituents of, and other cells containing similar substances. F. H. Scott 506
roots, posterior, loss of sensation in the arm from division of. Henry Head and James Sherren 194
supply of forearm. Henry Head and James Sherren 172
supply of lower limb. Henry Head and James Sherren 199
supply of palm of hand. Henry Head and James Sherren 123

Nervensystem, die Färbetechnik für das. Bernhard Pollack (Review)... 88

Nerve, case of fusiform enlargement of the, with ulnar neuritis, occurring fifteen years after injury to elbow. F. E. Batten 587

Nerves, changes in the nails after injury to peripheral. Henry Head and James Sherren 263
changes in the skin that follow injury to the peripheral. Henry Head and James Sherren 251
of hand, recovery of sensation after incomplete division of. Henry Head and James Sherren 163
of hand, recovery of sensation after injury to. Henry Head and James Sherren 140
paralysis and other muscular changes after division of peripheral. Henry Head and James Sherren 275
peripheral in man, consequences of injury to the. Henry Head and James Sherren 116

PAGE

Nervous affections, some investigations on acute rheumatic. Dr. Poynton and Dr. Alexander Paine (Abstract) 590
diseases of children, treatise for physicians and students. B. Sachs (Review) 573
system, afferent, from a new aspect. Henry Head, W. H. R. Rivers and James Sherren 99
system, paralysis and other diseases of the, in childhood and early life. James Taylor (Review) 573

Neuritis, ulnar, with fusiform enlargement of the nerve, occurring fifteen years after injury to the elbow. F. E. Batten... 587
